👤 PROFILE

I am a passionate Computer Science and Engineering student at the University of Asia Pacific with a strong interest in **Machine Learning, Artificial Intelligence, and Full-Stack Development**. I have hands-on experience in **AI Data Annotation and Quality Assurance**, contributing to machine learning projects through **data annotation** and **dataset validation**. AI workflows, and automation using **n8n**. Skilled in **Python, FastAPI, Flask, JavaScript, Selenium, and Postman**, I enjoy building AI-driven solutions and exploring modern technologies. I am a self-motivated learner with strong problem-solving abilities, eager to contribute to innovative projects and grow as an AI and Machine Learning Engineer.

📁 PROFESSIONAL EXPERIENCE

Agency Handy, (Intern) AI Data Annotation & Quality	Dec 1 – Mar 31 2026
- Supporting AI and Machine Learning projects by annotating and reviewing data with accuracy. - Ensuring high-quality labeled datasets for model training and improvement. - Maintaining consistency and precision across all data annotations. - Collaborating with team members to optimize annotation workflows. - Identifying and correcting errors or inconsistencies in datasets. - Assisting in data quality audits to ensure reliable model performance.	Uttara, Dhaka, Bangladesh
Joykoly Publication, Web & IT Support	1 Sep – 31 Oct 2025
- Managed and maintained website content, layout, and updates to ensure a clean, user-friendly, and well-structured online presence. - Performed security testing including vulnerability, penetration & compliance checks. - Performed end-to-end website testing (UI/UX, functionality, responsiveness, security) to ensure smooth performance across devices and browsers. - Created, optimized, and published high-quality content aligned with brand guidelines to enhance user engagement and improve website quality.	Dhaka, Bangladesh

🧠 COMPETITION PARTICIPATION

Solvio AI Hackathon, Sheba Platform Ltd (3,259+ teams, securing a top 394 rank)	11/2025
Technovation25 Hackathon, Josephite IT Club (Top 10 in the Final Round)	09/2025
INNOVATEX 2025 Hackathon, University of Asia Pacific (Top 20 in the Final round)	05/2025
IDEA Season 4.0, Entrepreneurship and Career Development Club of Uap -ECDC (IDEA Season 4.0)	04/2025

UAP Intra University Collaborative Programming Contest 1.0,
University of Asia Pacific
(Top 40 out of 70+ teams)

01/2024

MIST Hackathon – Inventious 4.1
Finalist round team at MIST Hackathon – Inventious 4.1

03/2025

 SKILLS

Programming Language C, JavaScript, Python	Frontend HTML,CSS,TailwindCSS,Bootstrap,Daisy UI,Reactjs,Sass,Nextjs,TypeScript,Streamlit
Backend Django,Node.js,Express.js,FastAPI,Jupyter Notebook	Automation Testing Selenium (Python), JMeter
API Testing Postman,Swagger	AI Automation N8n
Database Managment MySQL,MongoDB,Firebase,SQLite	Authentication & Authorization Firebase Auth,JWT Token
AI & ML PyTorch, TensorFlow, Hugging Face, OpenAI API, LangChain, NumPy, Pandas, Scikit-learn,Matplotlib, Seaborn	AI Tools Lovable AI,Cursor AI,Dyad,Bolt,Copilot

 PROJECTS

Failure-Risk-Prediction  , <i>TPS ML Web App</i> Failure Risk Prediction is a web application that predicts product failure risk using the TPS dataset and an XGBoost model. Built with Flask, it provides a user-friendly interface to input product parameters and get real-time risk predictions. Backend: Python, Flask, Flask-CORS Machine Learning: XGBoost, Scikit-learn, Joblib Data Processing: Pandas, NumPy Frontend: HTML, JavaScript, CSS	
Daily-task-prioritization-agent  , <i>AI Agent</i> Daily Task Prioritization Agent is an intelligent full-stack task management application that uses AI to prioritize and manage daily tasks. It features a modern Next.js frontend and a scalable FastAPI backend, offering smooth task handling and responsive design. Frontend: Next.js,TypeScript,Tailwind CSS,shadcn/ui,Lucide Icons Backend: FastAPI,Python,Uvicorn, Pydantic,CORS Middleware	
Books Vibes  , <i>FullStack</i> Book Vibes is a Django-based web application designed to provide users with a seamless online bookstore experience. Users can browse a curated collection of books, add them to their cart, and place orders with ease. The platform aims to enhance the reading journey by offering an intuitive and user-friendly interface. Backend: Python,Django,SQLite Frontend: HTML,CSS,Javascript,Bootstrap	
UAP-Alumni-Connect , <i>FullStack</i> UAP Alumni Connect Website is an online platform that brings together alumni, students, and faculty of the University of Asia Pacific. It allows users to browse alumni profiles, network, and stay engaged with the community, serving as a central hub for connection and collaboration. Frontend: Reactjs,HTML,CSS,Javascript,Firebase Auth Backend: Supabase,PostgreSQL,Node.js,Express	

EDUCATION

B.Sc in Computer Science and Engineering, *University of Asia Pacific*

07/2022 – Present
